## CERTIFICATE OF ANALYSIS (SPECIMEN)

Agar | CAS 9002-18-4

|                |                                                               |
|----------------|---------------------------------------------------------------|
| Product        | Agar                                                          |
| CAS Number     | 9002-18-4                                                     |
| Grade(s)       | Food Grade/Technical/Microbiology Grade/Bacteriological Grade |
| Batch No.      | As per despatch                                               |
| Mfg / Exp Date | As per despatch                                               |

### Analysis — Declared Specification vs Typical Result

| <b>Parameter</b>               | <b>Specification</b>                                          | <b>Typical Result</b> |
|--------------------------------|---------------------------------------------------------------|-----------------------|
| Appearance                     | Refer to TDS                                                  | Conforms              |
| Identification (CAS / Formula) | 9002-18-4 / Polysaccharide                                    | Conforms              |
| Assay (as per grade)           | Food Grade/Technical/Microbiology Grade/Bacteriological Grade | Within specification  |
| Density                        | N/A                                                           | Conforms              |
| Solubility                     | N/A                                                           | Conforms              |

SPECIMEN document showing typical values against declared specification. A batch-specific, signed Certificate of Analysis accompanies every despatch. This specimen is not valid for regulatory submission or customs clearance.
