

## TECHNICAL DATA SHEET

Mandipropamid Technical | CAS 374726-62-2

### 1. Product Identification

|                  |                                                                                                                                    |
|------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Product Name     | Mandipropamid Technical                                                                                                            |
| CAS Number       | 374726-62-2                                                                                                                        |
| Synonyms         | Revus, Pergado, MK-8018, (RS)-2-(4-Chlorophenyl)-N-[2-[3-methoxy-4-(prop-2-yn-1-yloxy)phenyl]ethyl]-2-(prop-2-yn-1-yloxy)acetamide |
| Category         | Agrochemical                                                                                                                       |
| Available Grades | Technical 96% / SC 23.4%                                                                                                           |
| HSN Code         | 2924.19                                                                                                                            |

### 2. Physical & Chemical Properties

|                   |              |
|-------------------|--------------|
| Molecular Formula | —            |
| Molecular Weight  | —            |
| Appearance        | Refer to TDS |
| Density           | N/A          |
| Boiling Point     | N/A          |
| Melting Point     | N/A          |
| Flash Point       | N/A          |
| Solubility        | N/A          |

### 3. Applications

• CAA fungicide • Downy mildew • Late blight (potato) • Grape • Vegetables

### 4. Industries Served

Agriculture, Potato, Grape, Vegetable

### 5. Packing & Supply

Standard industrial packing. Bulk and customised packing available on request. Export supply with full documentation (COA, MSDS, COO, Packing List).

Values are typical and given in good faith as a guide to product characteristics; they do not constitute a specification or guarantee. Refer to the batch COA for certified values.
